Ok, cool.

While I'm thinking about it, are there any plans to use the leftover cabinets and lab bench from the remodel? I know we have a lot of balls up in the air right now and that it's not a top concern but I didn't know if we were still planning to have maintenance put in more workable bench space. If not, could we get rid of it or store it elsewhere? That room is kind of a dump right now and seeing how most everyone over here is depressed, angry, or worried out of their minds, I just thought if we could make that office workable space for more people, it might help alleviate some of the disheartened feelings or at least cheer them up a little. Let me know what you think. Thanks!

-Dan

Not sure. I signed something earlier this week. O worries though – you guys can work Saturday.

Hi Julie. I know Della's sick. Did she have you sign the overtime sheet for this Saturday?
